Objective

B.Tech CSE (Data Science) student with strong foundations in Data Structures, Algorithms, and backend system design. Skilled in building scalable applications and AI-driven systems, with a focus on problem-solving, performance optimization, and real-world impact.

Core Competencies

- Data Structures & Algorithms • Object-Oriented Programming (OOP) • Problem Solving & Optimization
- Cybersecurity Fundamentals• Requirement Analysis • Deployment & Testing • AI Tools & Prompt Engineering •Web Development (React, Node.js) • Rapid Prototyping & Iterative Development
- Version Control (Git/GitHub) • Collaborative Development • REST APIs & Debugging • Time Management

Education

C. V. Raman Global University *Sept 2023 – Present*
B.Tech (Pursuing, 1st–5th Semester)
CGPA: 8.20
DAV Centenary Public School (CBSE)
Class X: **85%** — Class XII: **80%**

Projects

AI-Powered Supply Chain Optimization Agent Live Link

- Built an AI-driven system for inventory optimization, demand forecasting, and supply chain decisions
- Developed backend services using **Python, FastAPI, and PostgreSQL** with async workflows
- Improved automation and reliability by integrating **LLM-based insights** and real-world datasets

CLASS-KAHA-HAI (Telegram Bot) Bot Link

- Engineered a production-ready Telegram bot to automate access to academic schedules and notices
- Eliminated the need to search schedules in files by providing one-click timetable access at users' fingertips via a Telegram bot.
- Improved system reliability through structured command handling and error management

GDOC (GitHub Documentation) Live Link

- Built an automated tool integrating GitHub APIs to analyze live repository metadata
- Designed workflows to generate standardized README.md documentation
- Improved developer productivity through automation and scalable software design

Certifications

- Introduction to Internet of Things — IIT Bombay (2024)
- Oracle Cloud Infrastructure Generative AI Professional (2025)
- Prompt Design in Vertex AI — Google Cloud (2025)
- ISC2 Candidate (2025)
- Google Cloud Career Launchpad Generative AI Leader (2026)

Skills

Programming Languages & Frameworks : HTML, CSS, JavaScript, Python, JAVA, C, React.js, Node.js, FastAPI
Tools & Technologies: Git, GitHub, Google Colab, Excel, AI, PostgreSQL, MySQL
Concepts: Data Structures, Algorithms, OOP, Debugging, Testing, System Design Basics

Languages

Hindi, English
